Dev Technology

United States

Dear Sir

I am writing to express my interest in the **Junior Full Stack React/Node.js Developer** at **Dev Technology** as advertised. As a passionate coder with a strong foundation in full-stack development, I am excited about the opportunity to bring my skills in JavaScript, React, Node.js, and real-time communication technologies like Socket.IO and WebRTC to your team.

During my time as a MERN Stack Developer at Brototype, I have honed my problem-solving skills by working on a range of projects, including developing a social media platform, **We Talks**, and an eCommerce website, **VKart**. These projects allowed me to apply my expertise in both front-end and back-end development, enhance user experience, and optimize real-time communication features. I also gained significant experience in deploying applications using AWS and managing databases such as MongoDB and MySQL.

My experience in building dynamic, user-centric applications aligns with the needs of **Dev Technology**. I am confident that my technical skills, dedication, and passion for technology would make me a valuable addition to your team. I am eager to leverage my skills to help achieve meaningful results and contribute to the success of your organization.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to at **Dev Technology**

Sincerely,
Vishnu P R
